Looking for an opportunity to work as a Computer Engineer, utilizing my strong technical abilities and problem-solving skills. To join an organization as a Computer Engineer where I can apply my knowledge of computer systems, hardware, software, networks, and programming languages.

HARD SKILLS

Web Development:

- Front-end: HTML5, CSS3, javaScript, ReactJS, Java, TailwindCSS, NextJS,
- Back-end: Nodejs (Express), MongoDB

System Deployment & DevOps:

- Docker for containerization
- Deployed on various servers (Dedicated Servers, VPS, Shared Hosting)

System Design:

- Redis, Kafk

EDUCATION

S.S.C (2009 – 2019)
St John Convent High School

77.94%

H.S.C (Science) (2020 – 2022)
AE Kalsekar College

71.69%

Bachelor of Computer Engineering (2023 – 2026)
Rizvi College of Engineering

ACHIEVEMENTS

- 2024- Selected as a representative from my college to participate in the Smart India Hackathon (SIH).
- 2023 – Awarded 2nd prize in the Debugging competition at my college.

CERTIFICATES

- **Forage : TATA**   December 2023
- **DevTown**   March 2023

SOFT SKILLS

- Quick Learner
- Teamwork
- Communication Skills
- Research Skills

INTERNSHIPS

ARADHYATECH (January 2024 – February 2024)

- **Designed dynamic landing page**: Created a responsive landing page using HTML, CSS, and JavaScript to enhance user experience
- **Collaborated on Figma designs**: Developed wireframes and prototypes with the design team for seamless design-to-development transition
- **Optimized website performance**: Implemented image compression and code minification for faster load times and better user satisfaction

PRODIGY INFOTECH (December 2023 – January 2024)

- **Constructed a personal portfolio site**: Designed and launched a personal portfolio to exhibit projects and skills, utilizing modern web technologies
- **Developed a Tic Tac Toe game**: Implemented a fully functional Tic Tac Toe game using JavaScript, focusing on interactive features and user experience
- **Crafted small-scale web applications**: Built various small web apps, improving coding proficiency and understanding of web development frameworks

PERSONAL PROJECTS

TunePlaylists - Music Web Application

- Developed a responsive music web application, "TunePlaylists," using HTML, CSS, and JavaScript
- Hosted on freewebhostmost.com, the app features albums of various singers, allowing users to stream songs seamlessly across all devices

This project *built with HTML for structure, CSS for styling, and JavaScript for interactivity. This project highlights my skills and projects, demonstrating proficiency in front-end design, responsive web development, and integrating interactive elements to enhance user experience.*

Ecommerce website All Product E-commerce Website Design (e-commerce-by-shoeb.netlify.app)

Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js

- Frontend developed using HTML, CSS and javascript
- Backend implementation built using Node.js, Express.js

This project enhanced my skills in building a dynamic user interface, managing database interactions, and implementing secure authentication and session handling for a complete e-commerce experience.
